

Surface Design |

Engineered to personify your walls

Deauro wall tiles are the fascinating highlight in great interiors.

We manufacture them from *Precious Slate*, a unique slate glass composite developed by us.

For the luxury lines *Stars* and *Moon* slate veneers are finished with 24 carat gold or our high-tech metallization and connected with highly transparent, tempered glass.

This refinement accentuates the topography of the slate and the light reflection of its mica crystals in a unique way. This creates an extraordinary material of incomparable depth and brilliance.

Finest raw materials, many working steps and the natural variance of the stone make *Deauro* wall tiles inimitable and very valuable.
